

## **My Blackjack Winning Tips & Strategy: By Christopher Mitchell**

Blackjack is without a doubt the most popular Casino card game in the world. It's also the most mis-played card game in the world thanks to the Casino's brainwashing people to play by the infamous Basic Blackjack Strategy. Every single person who I've ever seen play Blackjack by using the Basic Blackjack Strategy loses their money. I see this at every single Casino I go to. I also get dirty looks and sometimes yelled at by others because I do NOT play by the Basic Blackjack Strategy. However, I don't do what's popular with others. I do what makes me money. A very rich and famous mentor gave me the most valuable advice I've ever received before. That advice was this:

**Christopher, if you want to be successful in life, find out what EVERYONE else in the world is doing and do the EXACT opposite.**

I've lived by that advice ever since and it has proven wonders for me in my life. So, when I became a Professional Gambler and started playing the game of Blackjack, I noticed how EVERYONE always played by something called the Basic Blackjack Strategy, but I also noticed that they ALWAYS lost their money. I remembered my mentor's advice and decided immediately that if EVERYONE else in the world plays Blackjack by using the Basic Blackjack Strategy, then that is exactly what I would NOT be doing. So, I decided to create and play by my own Blackjack Strategy. Sure enough, I've been winning ever since! My winning Blackjack tips and strategy that I'm going to share with you below is how I make anywhere from \$500 to \$2,000 every single day on average, day in and day out. Please follow my tips and strategy to the "T" and I know you'll get the same results that I get.

## **My Blackjack Winning Tips:**

1. Go to a Casino that has a lot of different Blackjack tables.
2. Find tables with small minimum bets and big maximum bets.
3. Don't ever play Blackjack ONLINE or on an ELECTRONIC TABLE GAME.
4. Make sure you have a bankroll big enough to cover 6 Martingale bets.
5. Don't ever SPLIT.
6. Don't ever SURRENDER.
7. Don't ever DOUBLE DOWN.
8. Don't ever TAKE INSURANCE.
9. Don't ever bet on the SIDE BETS.
10. Don't ever BUST (don't take a hit if your first two cards equal 12 or higher). This is without a doubt the absolute greatest secret that I can give you.

## **My Blackjack Winning Strategy:**

- Go to a Casino (keep in mind the tips above) and find a Blackjack table to sit down at.
- Put your cash down on the table so the dealer can exchange it for chips.
- Put the table minimum down as your starting bet.
- No matter what, simply stick to the tips above on every single hand. No exceptions!
- If you lose a bet, double (Martingale) the size of your next bet. If you lose 6 hands in a row STOP playing for the day. This should hardly EVER happen as long as you follow my tips and strategy.
- Once you get just ONE win move on to another table and repeat. So, you'll get ONE win at a table, then move on to another table and get just ONE win. Keep bouncing from table to table focusing on getting just ONE win at a time. By bouncing from table to table you're lowering the likelihood of losing a lot of bets (Martingale's) in a row.
- Continue this process from table to table until you reach your daily goal.
- Do NOT be greedy. Set a goal to win \$250 to \$500 a day. This can be achieved very quickly playing the game of Blackjack.
- Remember, I use these exact tips and strategy to win \$500 to \$2,000 in only 30 to 60 minutes every single day. If I can do it, so can you.

By buying my Blackjack tips and strategy from me, you also get me as your personal success coach. You can email me any time with any additional questions you might have for no additional cost whatsoever. Please email me at [changeyourlifevlog@gmail.com](mailto:changeyourlifevlog@gmail.com)

Some people ask me for coaching over the phone. If this is of interest to you, I do provide live phone consultations at the following additional costs:
