

Law of the third for streets

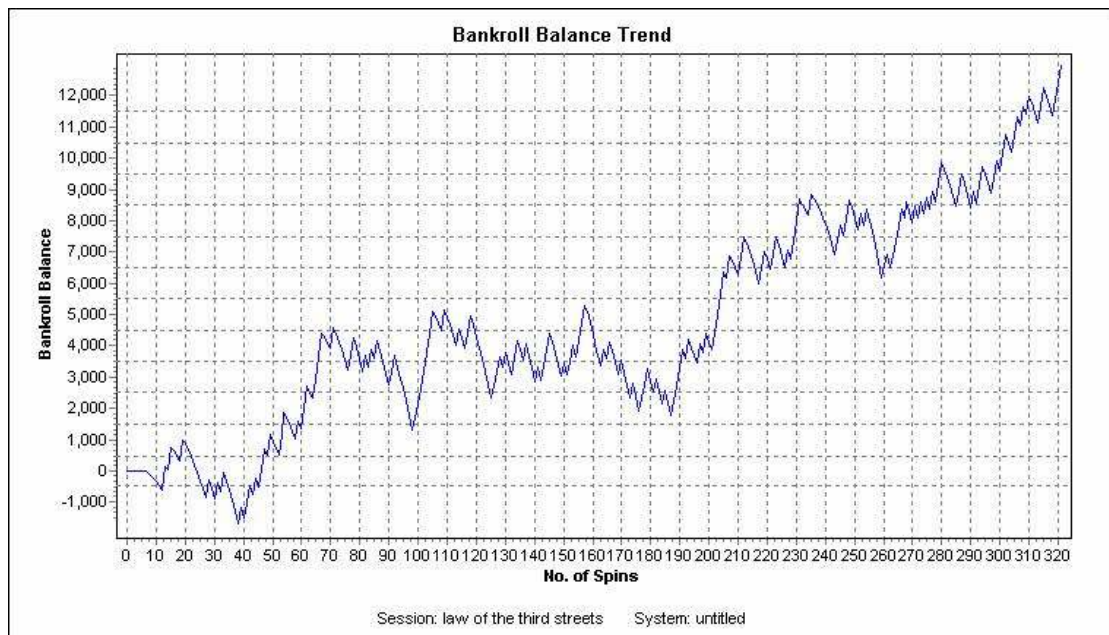

a very simple system :)
if a number repeats in a street, then we play the other two.
If two separate numbers appear in a street, we play them
both

This is a totally flat betting system
based on the "law of the third"

below is a small rng sample using \$25.00 units, of course
we can start at 1.00 chips or less, depending on our bankroll
limits.

After time you can step up the unit size, etc

Cheers
Ed

Further explanation -

Let's say that in street (1,2,3) we have
a show of #1 and then in the future a show of #2.
In this case we flat bet on #1 and #2

If we have a repeat - #1 shows and then repeats before
the other two numbers show, we bet the other 2 (#s 2 and 3)

Here is an example from today's spins :

6/21/table 1

14

10

25

7

12 (10 and 12) so we play them both

19

27 (25 and 27) so we play them both

36

6

12 (wins) remove bets in that street

8 (7 and 8) so we play them both

9

8 (wins) remove bets in that street

(note 25.00 units we are already up +1,100.00)

18

36 (repeats so we play 34 and 35)

9 (8 and 9) so we play them both

29

9 (wins) remove bets in that street

12 (repeats so we play 10 and 11)

27 (wins) remove bets in that street

(note 25.00 units we are ahead +2,200.00)

2

21 (so we play 19 and 21)

14 (repeats so we play 13 and 15)

21 (wins) remove bets in that street

29 (repeats so we play 28 and 30)

24

24 (repeats so we play 22 and 23)

29

32

2 (repeats so we play 1 and 3)

19 (so we play 19 and 21)

4 (so we play 4 and 6)

21 (wins) remove bets

23 (wins) remove bets

2

7 (so we play 7 and 9)

5
1 (wins) remove bets
10 (wins) remove bets
5
23 (repeats so we play 22 and 24)
20 (so we play 20 and 21)
32 (repeats so we play 31 and 33)
16 (so we play 16 and 18)
25 (so we play 25 and 27)
30 (wins) remove bets
30 (repeats so we play 28 and 29)
4 (wins) remove bets
13 (wins) remove bets
16 (wins) remove bets
13 (repeats so we play 14 and 15)
33 (wins) remove bets
33 (repeats so we play 31 and 32)
34 (wins) remove bets
20 (wins) remove bets
29 (wins) remove bets

etc...

we are above 2700.00 in profits now using 25.00 chips - flat betting only.

Hope this explains it better - any questions just ask.
